The components identified by the mark of  in the schematic are important X-Radiation and Safety Parts. Should replacement is required, replace only with the same type and rating originally used

The components identified by the mark of  in the schematic are important safety parts. If replacement is required, refer to service manual to re-adjust and/or re-checked the B+ and High Voltage to reach the specified value.

- NOTES: 1. Resistor values are in ohm, K=1,000 ohm, M=1,000,000 ohm
 2. All resistors are 1/8 watt except where otherwise indicated
 3. ∇ Represents PCB common ground.

△ : The components identified by the mark of △ in the schematic are important X-Radiation and Safety Parts. Should replacement is required, replace only with the same type and rating originally used.

△ : The components identified by the mark of △ in the schematic are important safety parts. If replacement is required, refer to service manual to re-adjust and/or re-checked the B+ and High Voltage to reach the specified value.
